OBJECTIVE

"Sophomore IT student at HUST with strong interests in Algorithms, Discrete Mathematics, and Optimization. Seeking to join MSO Lab as a student member to explore professional research methodologies and further develop algorithmic problem-solving skills through the Lab's projects."

EDUCATION

Cau Xe High School

- 📅 Sep 2022 – June 2024 📍 Hai Phong, Vietnam
- Recognized as a Student of Three Merits (2024)
 - First Prize - City-Level Physics Excellent Student Competition (Grade 12 - 2024)
 - Second Prize - City-Level Physics Excellent Student Competition (Grade 10 - 2022)

Hanoi University of Science and Technology (HUST)

- 📅 Sep 2024 – Present 📍 Hanoi, Vietnam
- School of Information and Communication Technology (SolCT)
 - Program: Vietnam-Japan Information Technology (HEDSPI).
 - Current GPA: 3.68 / 4.0**
 - Relevant Coursework: Data Structures & Algorithms, Discrete Mathematics, Linear Algebra, Calculus, Probability and Statistics, C Programming.

ACADEMIC PROJECTS

Algorithmic Foundations & Complexity Analysis Self-study & Coursework

- 📅 2025 📍 HUST
- Re-implemented core data structures (Binary Trees, Graphs) and algorithms (Shortest Path, Dynamic Programming) from scratch in C Language to master logic and implementation details.
 - Benchmarked algorithm performance across different scenarios to analyze **time-space complexity** and practical trade-offs.
 - Explored basic **Heuristic methods** as an alternative to exact algorithms for large-scale problem sets.
 - Algorithm Implementations and Experiments:
<https://github.com/PhungMinhPhuc/AlgoLab-Graph-Optimization>

Student Management System Course: Programming Techniques

- 📅 2024 📍 HUST
- Developed a data management application using C Language.
 - Implemented Linked Lists and File I/O for data persistence.
 - Focused on memory management (pointers) and logical error handling.

RESEARCH INTERESTS

- Data Structures
- Algorithms
- Discrete Mathematics
- Optimization
- Graph Theory

TECHNICAL SKILLS

Programming Languages:

C/C++ Python Java SQL

Core Foundations:

Data Structures Algorithms
Linear Algebra Calculus
Discrete Mathematics
Probability and Statistics

Tools & Others:

Git Latex

SOFT SKILLS

Self-learning Problem Solving
Teamwork Time Management

LANGUAGES

English B2
Japanese N4
